About Us

White Plus Innovations (I) Pvt. Ltd is a leading manufacturer of premium-quality medical devices and specializes in single-use medical devices in Infusion Therapy, Blood Collection, Surgery & Drainage Systems, Gastroenterology, Renal Care and Critical Care.

We have installed top-of-the-line automatic machines in our manufacturing facility with a quest to achieve high quality products. We manufacture all products under Clean Room Areas, and we have in-house ETO Sterilizer and

dedicated quality and microbiology lab equipped to meet international regulatory requirements.

The Company maintains and follows the Quality Management System as per EN ISO 13485:2016. White Plus has hundreds of associates who work tirelessly in collaboration with clients to help improve product quality, safety and access to healthcare.

Quality Policy

- To be an innovative and leading organization in medical device industry, that develops its product portfolio by following the innovations in the Health Care sector.
- To offer the medical devices to the market with competitive prices without compromising product quality, and to keep the customer satisfaction at its utmost level.
- To improve product quality by enabling the implementation of quality system effectively in every phase of production.
- To maintain the effectiveness of quality management systems to meet customer and regulatory requirements.

Our Mission

- Our mission is to supply reliable and accessible medical devices for diagnosis and treatment of human disease and improvement in quality of life.

READYSAFE

I.V Cannula with Injection Port & Wings
with Safety Feature

Sizes : 14G to 26G

Features :

- ❖ The highly polished stainless-steel needle with a triple-faceted back cut reduces penetration force and minimizes the risk of nerve damage.
- ❖ Bio-compatible material for longer indwelling period
- ❖ Flexible wings for secure fixation.
- ❖ Excellent needle sharpness/catheter tipping for less traumatic insertion.
- ❖ Passive device for protection from needle stick injury. Needle sharp tip is locked inside a plastic safety guard after use.
- ❖ The safety guard is designed to enclose needle sharp tip after the needle is withdrawn hence preventing healthcare professionals from the risk of accidental needle stick injury.

Available in :

- ❖ FEP/PTFE/PUR Catheter
- ❖ IV Cannula without Wings & without Port with safety Feature
- ❖ IV Cannula with Wings & without Port with safety Feature
- ❖ Packaging - Blister Pack

Gauge	Catheter OD(mm)	Catheter Length(mm)	Flow Rate (ml/min.)	Packaging (Inner/Outer)
14G	2.1	45	300	100/1000, 50/500
16G	1.7	45	200	100/1000, 50/500

I.V. Cannula with wings & without Injection Port

Sizes : 14G to 26G

IVC20004

READYWIN

I.V. Cannula without wings & without Injection Port

Sizes : 14G to 26G

Features :

- ❖ The highly polished stainless-steel needle with a triple-faceted back cut reduces penetration force and minimizes the risk of nerve damage.
- ❖ A siliconized tip for reduced trauma, and improved flow rates and chemical resistance.
- ❖ Flexible wings for secure fixation.
- ❖ Excellent needle sharpness/catheter tipping for less traumatic insertion.
- ❖ Translucent flashback chamber for confirming proper needle placement.

Available in :

- ❖ FEP, PUR, and PTFE catheter with or without radiopaque lines.
- ❖ Available in Suturable Wing and Flip type Port Cap.
- ❖ With or without porous filter in flashback chamber

READYNEO[®]

I.V. Cannula with small wings & without Injection Port
Sizes : 24G to 26G

IVC16007

READYPEN

I.V. Cannula without wings & without Injection Port (360° rotation)
Sizes : 14G to 26G

READYSTOP

Yellow Stopper / Injection Stopper (INJ0100101)
Needle Free Connector (INJ0100201)

Features :

- ❖ Excellent needle sharpness/catheter tipping for less traumatic insertion.
- ❖ A siliconized tip for reduced trauma, and improved flow rates and chemical resistance.
- ❖ Flexible wings for secure fixation.
- ❖ Made using biocompatible material for longer indwelling periods.
- ❖ Translucent flashback chamber for confirming proper needle placement.

Available in :

- ❖ FEP /PTFE/ PUR Radiopaque Catheter, Hydrophobic Filter
- ❖ Packaging : Blister Pack

IVS1101121

READYSET[®] - IV

Infusion Set
with Air Stop filter

IVS1200201

READYSET[®] - IV

Infusion Set - Premium

IVS1200921

READYSET[®] - IV

Infusion Set - with Y Site

IVS1101221

READYSET[®] - IV

Infusion Set - with Flow regulator

Features :

- ❖ A fine filter within the chamber offers high flow rates and safeguards against large particles.
- ❖ Soft and kink resistant PVC tubing ensures uniform flow rate.
- ❖ Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates.
- ❖ Suitable for gravity feed as well as pressure infusions up to 2 bars.

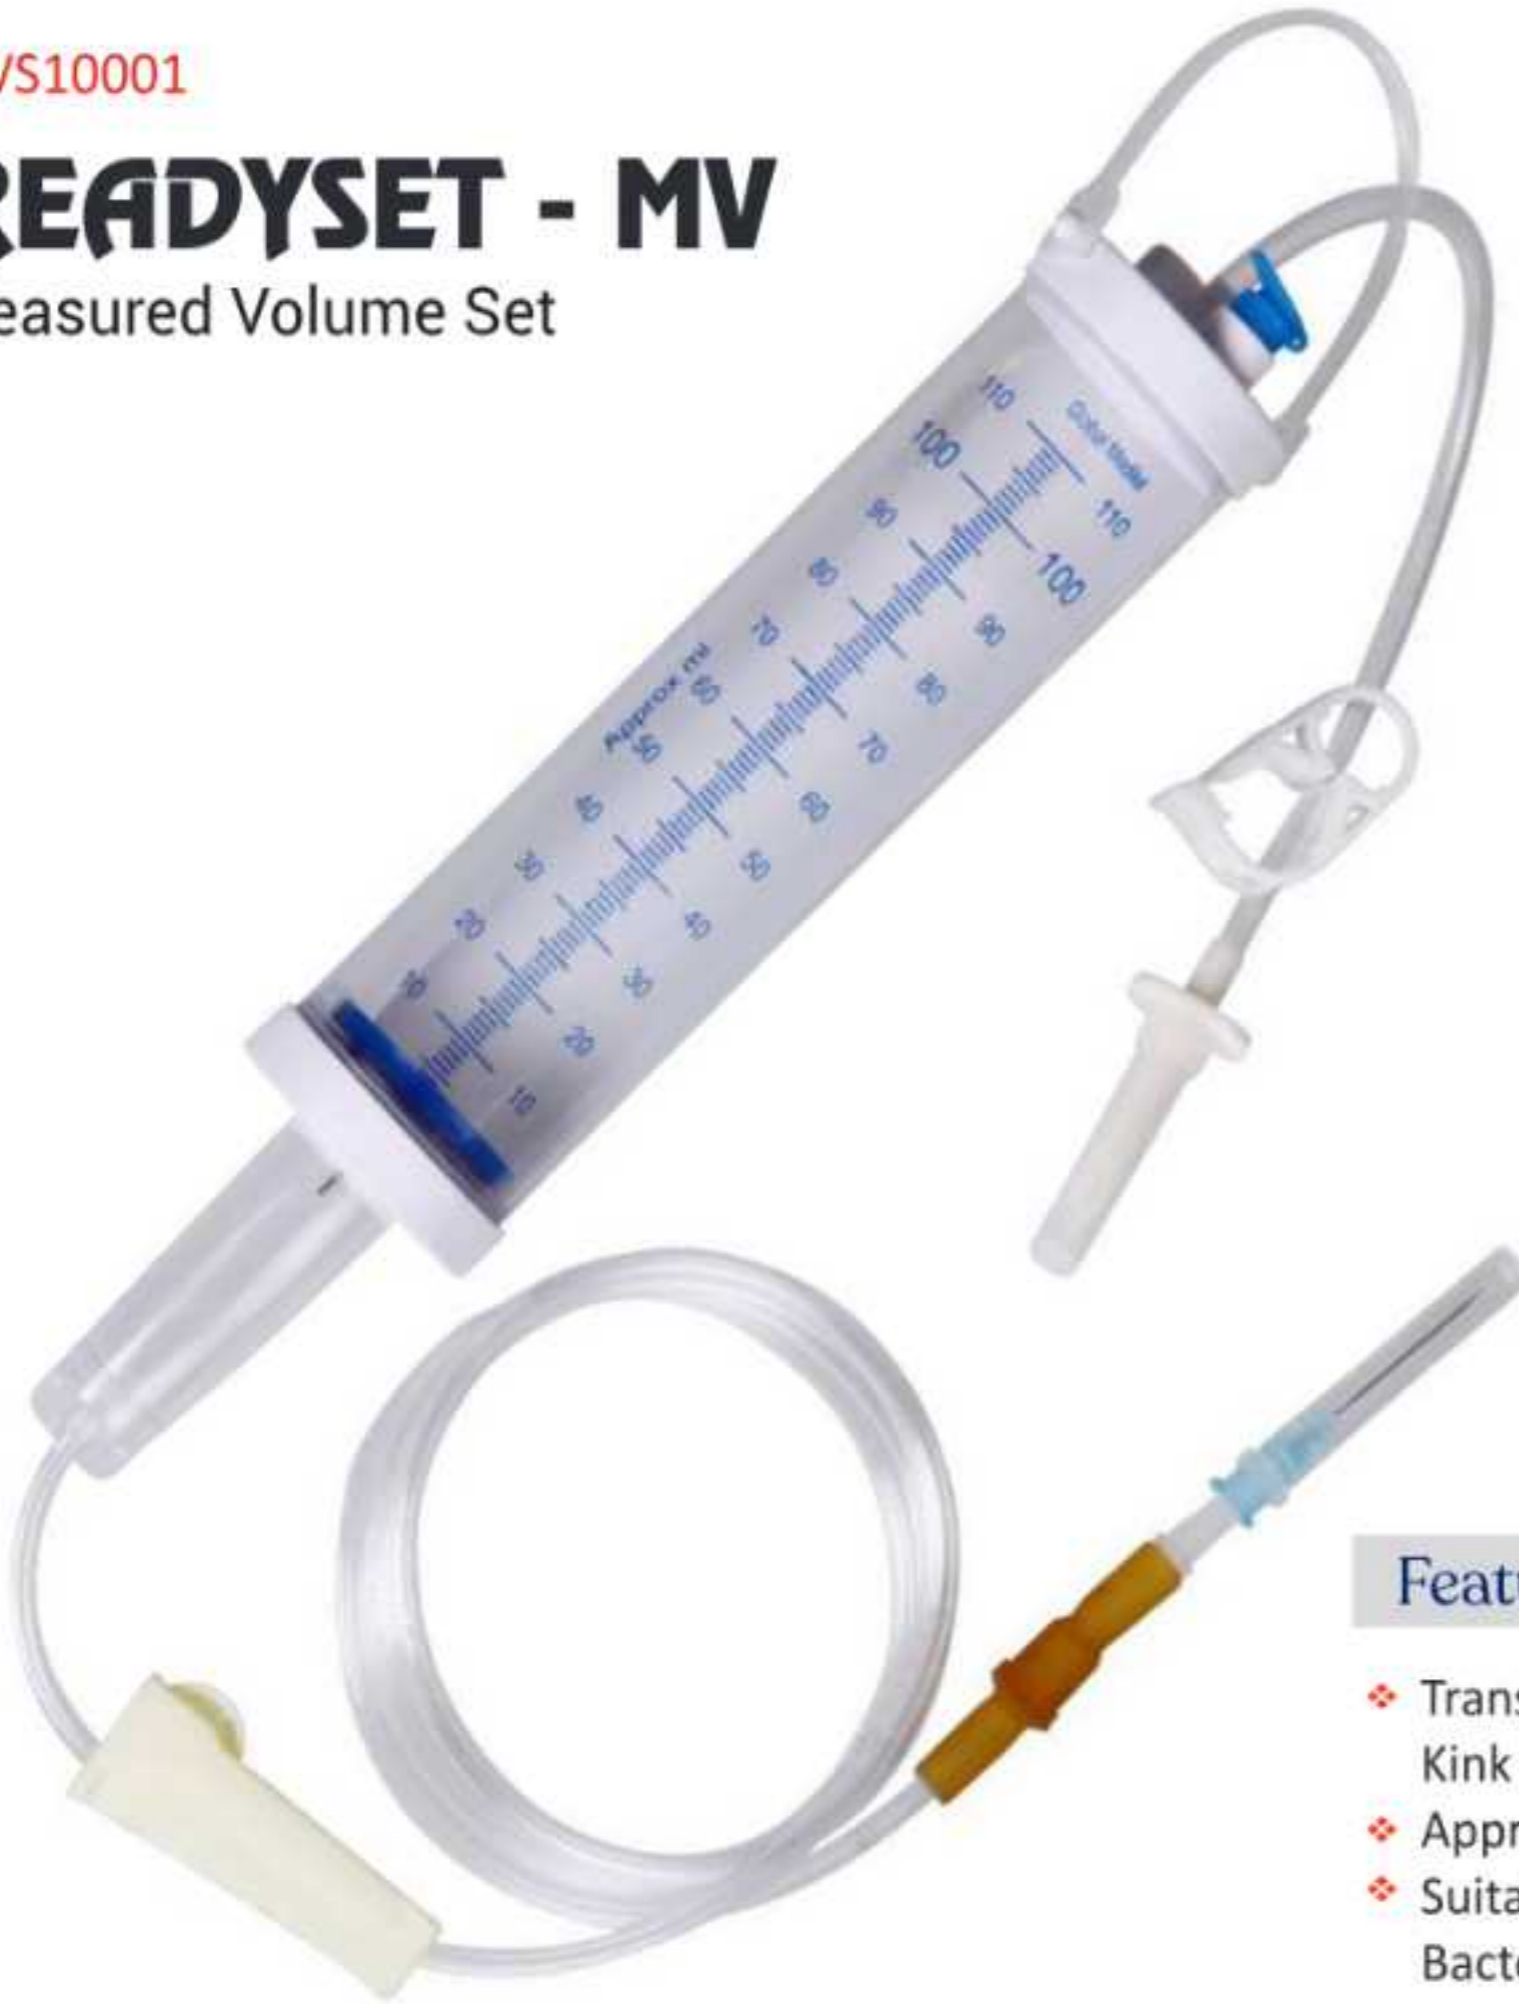

Available in :

- ❖ With or without vented and non-vented spike.
- ❖ With or without needle
- ❖ With Injection Y-site and Male Luer.
- ❖ DEHP-free PVC tubing
- ❖ Individual Pouch Pack, Ribbon pack,
(Inner : 25 Pcs, Outer : 500 Pcs.)

MVS10001

READYSET - MV

Measured Volume Set

Features :

- ❖ Transparent & calibrated drip chamber. Kink resistant PVC tubing.
- ❖ Approximately 60 drops/ml.
- ❖ Suitable for infusion of measured volume of IV fluid. Bacteria retentive air inlet to prevent air contamination.
- ❖ Latex Injection port for extra medication.

Available in :

- ❖ 110 ml & 150 ml Drop rate – 60 drops/ml.
- ❖ Individual Pouch pack (Inner : 10 Pcs, Outer : 250 Pcs)

BTS10002-04

READYSET - BT

Blood Transfusion Set

Features :

- ❖ Transparent & flexible drip chamber.
- ❖ With 200-micron blood filter.
- ❖ Available with priming filter.
- ❖ Soft and kink resistant PVC tubing ensures uniform flow rate.
- ❖ Smooth roller clamp facilitates easy, safe control and adjustment of fluid rates

Available in :

- ❖ With or without vented and non-vented spike.
- ❖ With or without needle
- ❖ With Injection Y-site and Male Luer.
- ❖ DEHP-free PVC tubing
- ❖ Individual Pouch pack (Inner : 25 Pcs, Outer : 500 Pcs)

TWS10001-02

READYFLEX[®]

3 Way Stop Cock

Sizes : Red, Blue & White

Features :

- ❖ Crystal clear transparent channel.
- ❖ Arrows marks on the tap indicate direction of flow.
- ❖ Minimum priming volume required for accurate drug administration.
- ❖ Connectors meets 6% taper requirement to ensure leakage free fitment.

Available in :

- ❖ Universal Color Coding of tap/handle (Red, Blue & White)
- ❖ Lipid Resistant.
- ❖ Individual Blister Pack (Inner :50 Pcs, Outer :500 /1000 Pcs)

TWE10001

READYFLEX[®] Plus

3 Way Stop Cock with Extension Line

Sizes : 10cm to 250cm

Features :

- ❖ Three way stopcock at one end and Male Luer connector at the another end.
- ❖ Crystal clear transparent channel.
- ❖ Arrows marks on the tap indicate direction of flow.
- ❖ Minimum priming volume required for accurate drug administration.
- ❖ Connectors meets 6% taper requirement to ensure leakage free fitment.

Available in :

- ❖ DEHP Free PVC tube, Lipid resistant
- ❖ Individual Pouch pack (Inner : 25 Pcs, Outer : 500 Pcs)

EXT10001-03

READYEX[®]

Extension Line (Low Pressure & High Pressure)

Sizes : 10cm to 250cm

Features :

- ❖ Kink-resistant PVC tubing.
- ❖ Male luer lock at one end and female luer lock at the other end.
- ❖ Extension tubes are available in various lengths to accommodate diverse patient needs and medical procedures.
- ❖ Extension tubes come with connectors at each end, designed for connection to various medical devices, such as catheters, IV lines, syringes, and infusion pumps.
- ❖ Transparent extension tubes are designed to allow healthcare providers to easily monitor fluid flow.

Available in :

- ❖ DEHP Free PVC tube
- ❖ Low pressure monitoring extension line.
- ❖ High pressure monitoring extension line
- ❖ Individual Pouch pack (Inner : 25 Pcs, Outer : 500 Pcs)

UNO (MXT1000101), DUO (MXT1000201)
TRIO (MXT1000301)

READYEX (UNO, DUO, TRIO)

Extension Line with Needle free valve connector

Features :

- ❖ **Multiple Channels:** Enables simultaneous infusion of different fluids, medications, or blood products without mixing.
- ❖ **Universal Connectivity:** Compatible with all standard Luer slip/lock syringes and connectors.
- ❖ **Leak-Proof Design:** Luer lock/slip connectors ensure secure attachment and prevent leakage.
- ❖ **Low Priming Volume:** Minimizes fluid wastage during priming.
- ❖ **Durable Materials:** Medical-grade, kink-resistant, and leak-proof for reliable performance.
- ❖ **Versatile Use:** Works seamlessly with infusion systems, monitoring equipment, and drainage setups.

Available in :

- ❖ Single Lumen, Double Lumen, Triple Lumen
- ❖ Individual Pouch Pack (Inner : 50 Pcs, Outer : 500 /600 Pcs)

CFX1000101-04

READYFIX

IV Cannula fixator

Sizes : U shape & I shape

Features :

- ❖ Keeps IV cannula in place, preventing displacement.
- ❖ Soft material for patient comfort, reducing skin irritation.
- ❖ Quick and easy to apply, saving time during procedures.
- ❖ Strong adhesive ensures long-lasting fixation.
- ❖ Allows skin to breathe, reducing moisture build-up.
- ❖ Compatible with various IV cannula sizes.
- ❖ Ensures hygiene and minimizes infection risks.

Available in :

- ❖ PU Film Fixator, Microporus Tape Fixator, Cloth Bandage Fixator
- ❖ Individual Pouch pack (Inner : 100 Pcs, Outer : 3000 Pcs)

IVF10001

READYFLOW

IV Flow Regulator

Features :

- ❖ IV fluid flow regulator extension set
- ❖ Engineered to manually control flow rates from 5 ml/hr to 250 ml/hr.
- ❖ Equipped with a built-in Y-connector injection site for additional medication administration.
- ❖ Requires two-handed operation, minimizing the risk of accidental tampering.
- ❖ Features male and female luer lock connectors for compatibility with other devices.

Available in :

- ❖ DEHP free tubing
- ❖ Individual Pouch pack (Inner : 25 Pcs, Outer : 500 Pcs)

SL (HDK1000101), DL (HDK1000201) TL (HDK1000301)

ACTICATH

Haemodialysis Catheter Kit

Used to build a temporary connection between patient and Dialysis machine for acute and short term dialysis.

Features :

- ❖ PU material for excellent Bio-compatibility and kink resistance.
- ❖ Radiopaque for fluoro scopic detection and easy placement.
- ❖ Multiple sizes for various patient needs.
- ❖ Ideal for extra corporeal therapies: Dialysis, Hemofiltration, Apheresis
- ❖ MRI compatible for easy placement under fluoroscopy.

Available in :

- ❖ Single lumen, Double lumen, Triple lumen.
- ❖ Packing Details : Inner : 01 Pcs, Outer : 10 Pcs

AVF01001

READYFIST

AV Fistula Needle

Features :

- ❖ Ultra-siliconized thin-walled sharp needle with bevelled back eye for easy insertion and minimize trauma to the patient
- ❖ Innovative design ensures patient safety and user comfort.
- ❖ Soft and kink-resistant medical-grade PVC tubing.
- ❖ Color-coded flexible wings for easy identification.
- ❖ Equipped with a 6% female luer taper port for a secure connection with other medical devices, preventing any leakage.

Available in :

- ❖ Needle Gauge 15G, 16G and 17G
- ❖ With or Without Back-eye Needle
- ❖ Twin Set (Arterial & Venous)
- ❖ Sterilization : Gamma Irradiation or ETO
- ❖ Pack Size : Inner : 50 Sets Pack, Outer : 500 Sets Pack

BDT10001 - 04

READYLINE®

Blood Tubing Set

Features :

- ❖ Blood tubing set has been specially designed for the patient to connect external system which extracts patient's blood to the dialyzer and then returns patient's blood from the dialyzer.
- ❖ Consists of two parts - arterial and venous - used during dialysis and attached with fistula and dialyzer.
- ❖ Unique chambers reduce foaming, increase air removal and do not trap epo compliant material of transducer protectors. This helps in ensuring secure machine fit and less incidence of wet out.
- ❖ Color coded ergonomic clamps and dialyzer connectors with tethered caps that seal tightly for disposal.
- ❖ Kink resistant blood tubing handles easily and ensures fast priming

Available in :

- ❖ Additional standard accessories
- ❖ Sterilization : Gamma Irradiation or ETO
- ❖ Individual Pouch Pack, Outer: 50 Pcs Pack

Transducer Protector

TDP0100101

OOK0000101

KIT MASTER®

On-Off Kit for Haemodialysis

Features :

- ❖ All components are sterilized and sealed in medical-grade packaging to maintain a sterile field and reduce the risk of infection.
- ❖ Designed for one-time use to ensure maximum safety and eliminate the risk of cross-contamination.
- ❖ The kit includes all essential components in a single, ready-to-use package—saving preparation time, standardizing procedures, and minimizing material waste.
- ❖ Manufactured from high-quality, medical-grade materials with secure connections to ensure consistent performance and reduce procedural complications.
- ❖ Completely latex-free construction ensures patient comfort and prevents allergic reactions.
- ❖ Individual Pouch Pack, Outer : 200 Pcs

YSH1001

YANKAUR SUCTION SET

Features :

- ❖ Suitable for intra-surgical removal of secretions and body fluids.
- ❖ Ribs on the outer surface for improved grip.
- ❖ Soft, flexible, and kink-resistant tube.
- ❖ Siliconized sleeve on the handle for smoother operation.
- ❖ Thumb-controlled YANKAUR handle available in standard or crown tip.
- ❖ They are suitable for a variety of applications, including the removal of oral secretions, blood, or other fluids during surgeries, dental procedures, and other medical interventions.

Available in :

- ❖ Handle : Crown Tip / Standard Tip
- ❖ Individual Pouch Pack (Inner : 15 Pack, Outer : 90 Pack)

SUC01001

SUCTION CATHETER

Features :

- ❖ Flexible & kink-resistant tube ensures smooth suction and patient comfort.
- ❖ Soft, rounded tip minimizes tissue trauma during use.
- ❖ Clear depth markings enables precise and safe insertion.
- ❖ Universal connector compatible with all standard systems.
- ❖ Smooth eyelets reduces airway injury risk while maximizing efficiency.
- ❖ Single-use & sterile prevents contamination for safe use.
- ❖ Color-coded sizes allows quick and easy identification.
- ❖ Biocompatible materials ensures safety and durability.

Available in :

- ❖ Colour Coded Connector, DEHP Free Tube
- ❖ Plain / Finger Tip / Thumb Control
- ❖ Individually packed (Inner : 50 Pack, Outer : 600 Pack)
- ❖ Size :5FG to 24FG

UCC01001

UMBILICAL CORD CLAMP

Features :

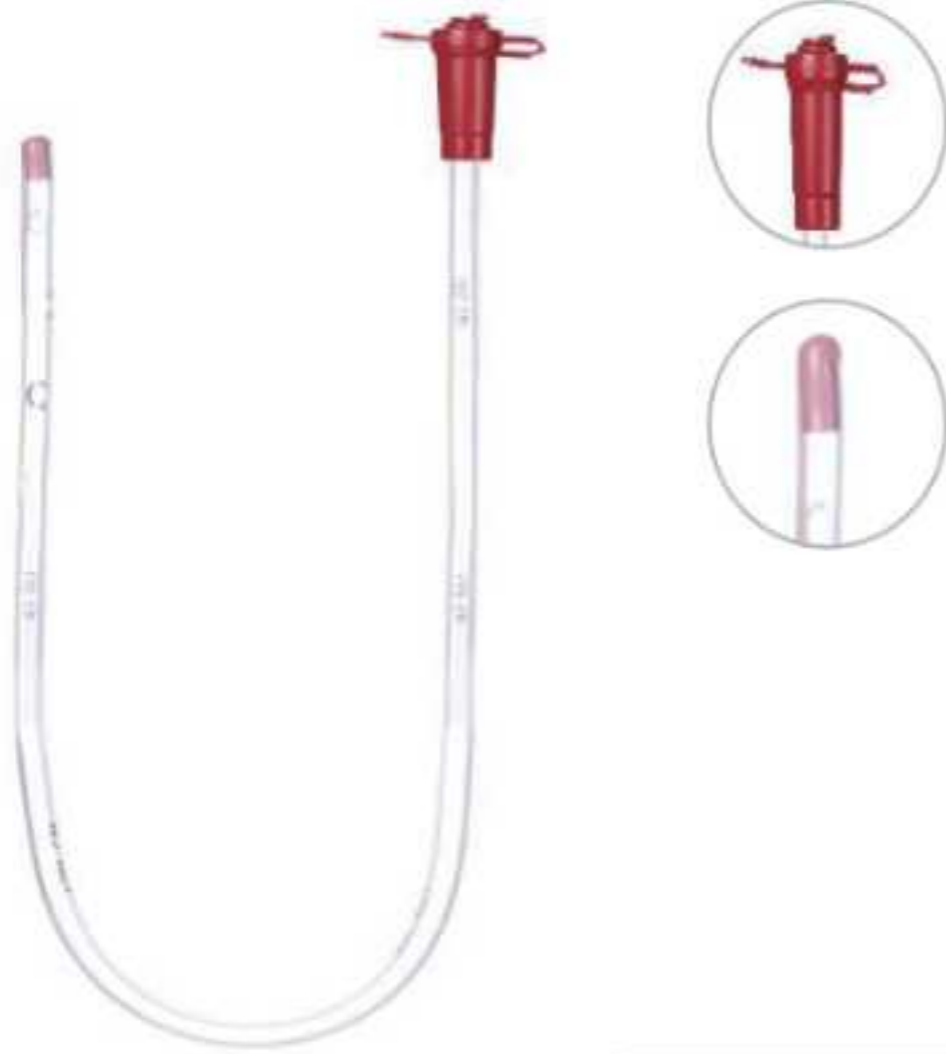

- ❖ Designed for clamping the umbilical cord immediately after birth.
- ❖ Finger grip for safe and convenient handling.
- ❖ Provided with grooves along the entire length.
- ❖ Appropriate angle for easy clamping movement.
- ❖ Clipping surfaces safely adjoined in notches to eliminate the risk of injury.
- ❖ Manufactured from non-toxic medical-grade polymer.
- ❖ Sterile, non-toxic, and pyrogen-free.
- ❖ Durable lock for secure clamping.

Available in :

- ❖ White or Blue
- ❖ Individual Blister pack (Inner: 100 Pack, Outer :2000 Pack)

RYL01001

RYLE'S TUBE

Features :

- ❖ The smooth surface of the tube facilitates easy incubation.
- ❖ Soft, frosted, and kink-resistant PVC tubing.
- ❖ The tube has a radio-opaque line provided along its full length and is marked at appropriately from the tip to ensure accurate tube placement.
- ❖ Four lateral eyes to reduce the risk of blockage.
- ❖ Color-coded luer adaptor with funnel end connector for easy identification.

Available in :

- ❖ Size 8, 10, 12, 14, 16, 18, and 20 FG.
- ❖ Individual Pouch Pack (Inner : 50 Pack, Outer :600 Pack)

MCS01001

MUCUS EXTRACTOR

Features :

- ❖ Made from soft, non-toxic, medical grade PVC material.
- ❖ Transparent chamber used for collecting the extracted material. Tube design with round open tip helps in trauma less intubation.
- ❖ Suction tubes design with funnel connector for connection to the suction equipment.
- ❖ Sterile, individually packed in peelable pouch pack.
- ❖ Chamber marked for help measure the volume of mucus removed.

Available in :

- ❖ Size : 10FG, 12FG, 14FG
- ❖ Individual Pouch Pack (Inner :25 Pack, Outer : 500 Pack)

IFT01001

INFANT FEEDING TUBE

Features :

- ❖ Made of soft, biocompatible materials, which minimizes irritation and discomfort for the baby.
- ❖ Radio-opaque line, visible on X-rays, to assist in confirming correct tube placement.
- ❖ Distal end is coned with two lateral eyes.
- ❖ Suitable in neonatal and paediatric enteral nutritional feeding.
- ❖ Frosted and kink-resistant PVC tube with a radio-opaque line marked at 50, 60, and 70 cm from the tip for accurate placement.
- ❖ Color-coded funnel and connector for easy identification of size.

Available in :

- ❖ Available in various diameters to fit different sized babies.
- ❖ Marked with measurements along the length for accurate placement

OXY01001

OXYGEN MASK

Features :

- ❖ Transparent Oxygen Mask is designed to administer oxygen to patients comfortably and efficiently.
- ❖ Made from special non-toxic medical-grade PVC to ensure patient safety.
- ❖ Holes to allow carbon dioxide exhaled by the patient to escape.
- ❖ Nasal metal clip provides secure fixation over the patient's nose.
- ❖ Elastic band ensures proper placement and comfort around the head.
- ❖ Transparent tubing for easy connection with mask to the oxygen source.

Available in :

- ❖ Size : Adult / Pediatric
- ❖ Individual Pouch | Outer: 200 pcs

NEB01001

NEBULIZER MASK

Features :

- ❖ Face Mask with Integrated Nebulizer Chamber is designed for effective nebulization therapy in patients.
- ❖ The transparent mask with vents is manufactured from non-toxic, medical-grade PVC, ensuring safety and clear visibility.
- ❖ The 6 ml nebulizer chamber holds liquid medication and features a funnel-shaped vent that allows high-flow oxygen to convert the drug into fine aerosol droplets for deep lung delivery.
- ❖ The device is supplied with soft, kink-resistant, non-collapsible 200 cm extension tubing (STAR LUMEN) for reliable connection to the oxygen source.

Available in :

- ❖ Size : Adult / Pediatric
- ❖ Individual pouch | Outer: 200 pcs
